

CIS 4970

DMD Senior Project

Charles Wang

What's changed?

- Running invalid shader doesn't crash program anymore! And exposing compilation diagnostics in UI
- Projects: open and save your project to disk
- More polish (better UI fonts, code refactoring)

Next steps

- Syntax highlighting for shader code
- Figure out loading of images and videos (+ camera!)
- Hot reloading
- More shader uniform variables
- Make UI look less like default Dear ImGui!
